

• RECLAIM • REGRIND • REPURPOSE

## Recycle Your Vinyl in 4 Easy Steps:

1.

### GATHER YOUR VINYL SIDING SCRAP

Minimize jobsite waste. Load new and used vinyl siding scrap into your truck instead of throwing it in the dump.

2.

### DROP OFF YOUR VINYL SIDING SCRAP

Your local Kaycan branch will be accepting your used or unused vinyl siding and will return it to their manufacturing facility.

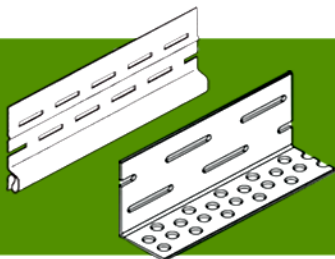

3.

### RECYCLED VINYL IS PROCESSED AT THE MANUFACTURING FACILITY

The scrap is cleaned and ground down into fine granules which can be melted down to create new products

4.

### PROCESSED VINYL CREATES NEW PRODUCTS

Vinyl siding scraps will be repurposed into accessories such as starter strips and anti-rodent trims.
